## Flange-Mounted

### Diaphragm Seals

M530 shown

Clean-out Design

Flushing Connection Available

ANSI Raised Face Flanged Process Connection

The **Trerice Flange-Mounted Diaphragm Seal** is furnished with a Clean-out design in ANSI Raised Face Flange (RFF) sizes of 1/2" through 3". Process housing flanges mate with the piping flange, which is supplied by the user. Available diaphragm choices include: Teflon T), Viton (V), Removable Metal (M) and Welded Metal (W).

Selection of the proper diaphragm seal is the sole responsibility of the user.
Temperature and pressure limitations must be considered. Please refer to the Diaphragm Seal Design & Operation Section of this catalog. Improper application may cause failure of the seal, resulting in possible personal injury or property damage.

For correct use and application of all diaphragm seals, please refer to Diaphragm Seal Standard ASME B40.2.
